Improving your health just got easier!

CareFirst has partnered with Sharecare, Inc. to bring you a new wellness program that puts the power of health directly in your hands.

Our new program offers exciting digital resources, like personalized tools, health trackers and challenges you can access anytime, anywhere. Refer to your enrollment materials for more information, or visit carefirst.com/sharecare to get started!

This wellness program is administered by Sharecare, Inc., an independent company that provides health improvement management services to CareFirst members. Sharecare, Inc. does not provide CareFirst BlueCross BlueShield products or services and is solely responsible for the health improvement management services it provides.
Vitality
MEMBER RESOURCE
GUIDE 2019

Vitality is published annually by the Marketing Communications department of CareFirst BlueCross BlueShield. The articles in Vitality are not intended as medical advice. For your individual health care needs, you should consult with your doctor or nurse practitioner. The benefit information presented in Vitality is a general description of coverage. It is not a contract and certain exclusions and limitations may apply. Your detailed coverage information is available in your benefit guide or by logging in to My Account at carefirst.com/myaccount. If you have questions about your coverage or have a mailing address issue, call Member Services at the telephone number on the back of your member ID card.

COMPANY LOGO

ON THE COVER
Protect Your Health
There’s no doubt that eating well, exercising regularly and getting a good night’s sleep are key parts of staying healthy—but there’s much more to it than that. Preventive care is essential to staying well and protecting your health.

My Account—Your Complete Online Resource

For members of CareFirst BlueCross BlueShield, CareFirst BlueChoice, Inc., and all corporate affiliates (CareFirst), My Account makes it easy to understand and manage your health plan and benefits.

By setting up an account, you'll have password-protected access to:

- Find and select in-network doctors, specialists, dentists and behavioral health providers—including hospitals, urgent care centers, labs and imaging facilities
- Choose or change your primary care provider (PCP) as applicable
- View, order or print your member ID card
- Check the status of claims, remaining deductibles and out-of-pocket totals
- Review your Explanation of Benefits (EOBs)
- View copays and identify other expenses for which you may be responsible
- Research drug and pharmacy information, including
  - Drug pricing
  - Drug savings opportunities
  - Important drug interactions and side effects
- Locate nearby pharmacies or access the mail service pharmacy
- Use the Treatment Cost Estimator* to calculate costs for treatment and services from specific providers—based on your plan's benefits
- Compare hospitals to determine which is best for the care you need
- Download forms for claim submissions, drug requests, authorizations and more
- Confirm if a referral or preauthorization is required for a specific service**
- Register for your new wellness program (available upon new, or renewing, medical coverage)
- Send a secure message or question via the Message Center

REGISTER FOR MY ACCOUNT

Signing up is quick and easy. It only takes a few minutes!

Go to carefirst.com/myaccount and select Register. Then, follow the steps to complete your registration.

1. Enter your member ID and your date of birth. (You must be at least 12 years old to register.)
2. Create a username and password.
3. Read and accept the Terms of Use.
4. Select Create Account to confirm your registration.

Get started today! Secure online access to your personalized health plan information, day or night.

*The estimated cost information provided is intended to be used as a reference tool for your convenience and is not a substitute for medical advice or treatment by a medical professional.
**If applicable for your plan.

Register today! Go to carefirst.com/myaccount to create a username and password.
Looking for Care? It’s Easy With Find a Doctor, CareFirst’s Online Provider Directory

Whether you’re searching for a new doctor or a nearby lab, Find a Doctor makes it easier than ever to locate providers, pharmacies, hospitals and more. Anytime, anywhere—nationwide.

Searching is easy
Go to carefirst.com/doctor to begin. You can search for a variety of providers including specialists, behavioral health, dental, and vision providers or health care facilities. Then, personalize your search to meet your needs by filtering on any of the following:

■ Provider name
■ Provider specialty
■ Location and distance
■ Gender
■ Languages spoken
■ Group and hospital affiliations
■ Accepting new patients

Not sure if a provider participates in your plan’s network?
To be sure a provider participates in your plan’s network, log in to My Account to conduct your search. By registering for and logging in to My Account, when you use Find a Doctor to locate providers, you will automatically receive in-network search results based on your plan type.

If you search for providers without logging in to My Account, based on the search criteria you enter, providers will be identified by the following:

■ In-network providers—Green alert icons ✓ indicate those providers who are considered in-network for the benefit plan you selected for your search. You will pay the least for care from these providers.

■ Out-of-network providers—These providers are designated by orange alert icons ¹ indicating the provider is not considered in-network for the benefit plan you selected. If you receive services from these providers, you may pay more for the service.

Want to know more about a provider or hospital?
To obtain additional information, go to carefirst.com/doctor to select the doctor or hospital. Then, click on the provider/hospital’s name to view specific details such as awards and recognition, specialties, education, training and board certifications. CareFirst also offers online resources that can help you decide which doctor or facility is best for your needs. Visit carefirst.com and choose Members, then Find Providers, for available resources.

If you do not have internet access and would like a printed copy of the provider directory, or information about providers, call Member Services at the telephone number on the back of your member ID card.

FIND A CONVENIENCE CARE OR URGENT CARE CENTER
Visit carefirst.com/doctor and select Medical for the type of care. Then select Immediate Care and pick either Convenience Care Center or Urgent Care Center.

When using the CareFirst mobile app, select Urgent Care Center and a list of nearby centers will automatically display.

Take Find a Doctor With You Wherever You Go
Download CareFirst’s free mobile app to locate providers, urgent care centers, emergency rooms and more, 24/7. With CareFirst on your mobile device, finding care is just a click away!

Away from home? Find a Doctor’s map feature provides a map to get you there!*

*App must have access to your smartphone’s location services. Visit your favorite app store and search for CareFirst to download the app.
Know Before You Go

*If you have a life-threatening injury, illness or emergency, call 911 or go directly to the nearest emergency room.*

Establishing a relationship with a primary care provider (PCP) is the best way to receive consistent, quality care. Except for emergencies, your PCP should be your first call when you require medical attention during or after office hours. Your PCP may be able to provide advice over the telephone or fit you in for a visit right away. To select or change your PCP, visit carefirst.com/doctor.

Here are other choices for care, including some options that are available anytime—day or night!

**FirstHelp**—free 24-hour nurse advice line

Unsure of your symptoms? You have 24/7 access to FirstHelp, our free nurse advice line for help when you can’t reach your PCP or are unsure about your symptoms. Call 800-535-9700 to speak with a registered nurse.

**CareFirst Video Visit**

See a doctor 24/7 without an appointment! Consult with a board-certified doctor whenever you want on your computer or mobile device. Visit carefirst.com/videovisit to learn more.

**Convenience care centers (retail health clinics)**

These are typically located inside a pharmacy or retail store (like CVS or Walgreens) and offer accessible care with extended evening and weekend hours. Visit a convenience care center for help with minor concerns like cold symptoms and illnesses that can be easily diagnosed.

**Urgent care centers**

Urgent care centers (including Patient First or ExpressCare) are your next option if you cannot see your PCP. Urgent care centers do not take the place of your PCP but have a doctor on staff and are available when you need care on weekends or after hours.

**Emergency room**

The ER is open 24/7 to treat medical emergencies. A medical emergency is a sudden, serious illness or injury that, without immediate medical attention, could result in serious jeopardy to the patient’s health, serious impairment to bodily functions, serious dysfunction of a body part or organ, or serious health risks for a pregnant woman’s fetus. If you can't call your PCP before heading to the ER, do it afterward. Your PCP needs to know what happened, so you can both take care of your health going forward.

---

**Head to the ER when experiencing any of the following:**

- Trouble breathing
- Sudden blurred or lost vision
- Head trauma or sudden confusion
- Uncontrollable bleeding, vomiting or diarrhea
- Chest pain or pressure
- Urges to hurt yourself or someone else
- Any sudden, severe problem that may threaten your life or cause you to lose a limb

Authorization is not needed for emergency or urgent care services.

---

**NEED TO HAVE LAB WORK DONE?**

Did you know where you choose to get lab work done can have a big impact on your wallet? Typically, services performed in a non-hospital facility cost less than those performed in a hospital.

You can lower your costs by receiving lab tests at participating national laboratories rather than hospital-based locations.

- BlueChoice members should use LabCorp to save the most money and avoid extra costs.
- PPO members can use either LabCorp or Quest Diagnostics to save the most.

---

*FirstHelp is administered by an independent company that provides 24-hour health care advice services.*
Member Resources

CareFirst Video Visit

See a doctor 24/7.

If your primary care provider (PCP) isn’t available for an appointment, don’t worry. With a smartphone, tablet or computer, CareFirst Video Visit can securely connect you with a doctor anytime, anywhere. Video Visit doctors are U.S. board-certified, licensed and credentialed to provide consultations, diagnose illnesses and write prescriptions. They’re available to help when:

- Your doctor’s office is closed
- Your children are home and you can’t get to the doctor’s office
- Traveling on business or vacation

The cost for an online visit varies based on your benefits and the services you need—like urgent care. You will see the cost before you begin your visit.

Video Visit is also a great option for treatment of uncomplicated, non-emergency health concerns such as:

- Allergies
- Sinus infections
- Common cold
- Flu
- Pink eye and more

When you’re sick and need answers, Video Visit makes it easy for you to get remote medical care from the comfort of your home.

Register today so Video Visit is ready when you need it! Setup takes just a few minutes. Visit carefirstvideovisit.com or download the CareFirst Video Visit app from your favorite app store.

Accessing Care

To help you make the most of your health care plan, it’s important to understand how to access care. In your member contract you can find specific information, such as:

- How do I access primary care, specialty care, behavioral health care, or hospital services?
- Is a referral needed to see a specialist or to receive treatment?
- Does the service or procedure require preauthorization?

Before obtaining treatment at a hospital, facility or lab, ask your physician where they have privileges to practice, and determine if those locations participate with your plan.

Visit carefirst.com to compare and research hospitals. Select Members, then Find Providers.

If you need assistance with accessing care, call Member Services at the telephone number on the back of your member ID card.

*The doctors accessed via this website are independent providers making their own medical determinations and are not employed by CareFirst. CareFirst does not direct the action of participating providers or provide medical advice. In the case of a life-threatening emergency, you should always call 911 or your local emergency services. CareFirst Video Visit does not replace these services.
Partnering With Your Doctor

Caring for your health is a team effort. Besides you, your doctor/PCP (primary care provider) is the single person with the most insight into your overall health and wellness. Keeping an open line of communication with your doctor helps you better manage any bumps along the road as a team. Once you’ve decided on a doctor, here’s how you can make the most of your relationship.

Schedule preventive care visits
Annual screenings and exams are important to staying on top of your health and finding potential problems before they start. These visits will help you develop a relationship so you can get to know each other, establish your health history and keep you on the right track.

Share your symptoms
If you’re feeling under the weather or have aches and pains, jot down some notes about your symptoms and bring them with you to your doctor. Sharing the specifics with your doctor will help get them up to speed so they can determine what’s going on and if additional tests are needed.

Ask questions
Your doctor is a valuable resource of medical knowledge and experience. Don’t hesitate to call or schedule an appointment if you feel something isn’t right or need more information.

Send test results to home base—always
With a little coordination, your PCP can be your health care “home base.” The next time you’re at an urgent care facility or seeing a specialist, make sure you have your visit record forwarded to your doctor/PCP. This step will help keep them informed when you’re receiving care elsewhere and can improve their coordination of additional care if you need it.

Research shows that active, assertive patients are more likely to follow a doctor’s advice and have a better recovery when they understand their treatment and participate in planning it.

PREVENTING MEDICAL MISTAKES
Medical mistakes can cause problems such as extended hospital stays, longer recoveries, additional treatments and sometimes permanent disabilities. By asking questions, learning more and understanding your risks, you can improve the safety of your own health care, and that of your family members. Take these simple steps:

1. Ask questions if you have doubts or concerns.
2. Keep and bring a list of all the medications you take.
3. Get the results of any test or procedure.
4. Talk to your doctor about which hospital is best for your health needs.
5. Make sure you understand what will happen if you need surgery.
Disease Management Coaching

*Personalized support to improve your health and well-being.*

Are you living with one or more chronic conditions like diabetes or congestive heart failure? If so, disease management coaching can help you better understand your treatment, medications and symptoms. Based on claims data, if you have a chronic condition or are at high risk for developing a chronic condition, you may be invited to participate in disease management coaching. You will be contacted by a nurse who describes the program and obtains your consent to participate in confidential telephone-based coaching sessions. The type of support you receive can include:

- **Personalized counseling**—Your coach will answer your questions, discuss your risks and suggest possible lifestyle changes.
- **Educational materials**—Based on conversations between you and your coach, you may receive additional information to better understand your current or potential health risks.
- **Support and encouragement**—Your coach will help you set or adjust your goals, track your progress and encourage you along the way.
- **Online tools**—You also have access to well-being tools and services including nutrition and fitness tracking tools.

To find out if you are eligible, call Member Services at the telephone number on the back of your member ID card.

NOTE: Members whose primary insurance is Medicare are not eligible for these programs and should call Medicare at 800-633-4227 or visit www.medicare.gov for a list of resources.

**TAKE THE CALL**

Did you know CareFirst offers several one-on-one coaching and support programs? You may receive a call from a nurse, health coach or pharmacy technician explaining one of our programs and inviting you to participate. These confidential programs offer help if, and when, you are:

- Faced with an unexpected medical emergency
- Seeking mental or behavioral health support
- Managing a chronic condition, like diabetes
- Taking several prescription medications

Take advantage of this personal support. Take the call! Visit carefirst.com/takethecall to learn more about these programs.

**Share Your Story**

When you take the time to share your personal experience, it speaks volumes. Members in similar situations can gain a better understanding of the resources available and learn how this support has improved the health and well-being of others.

If you have had a positive experience with our clinicians or care coordination programs—such as complex care management, chronic care support, behavioral health or substance use support, wellness or disease management coaching—we would love to hear from you.

Visit carefirst.com/shareyourstory to read our members’ stories and share your experience.
Turning 65 and Thinking About Retirement? We’ve Got You Covered

As the name you know and trust, CareFirst MedPlus is committed to being there for everything that comes next. Let us help you with health insurance coverage in the exciting years ahead.

CareFirst offers throughout our entire service area eight affordable MedPlus Medicare Supplement (or Medigap) plans—designed to fill in the gaps left by Original Medicare. A MedPlus plan could save you thousands of dollars in medical expenses each year and help you protect your retirement savings.

All of our MedPlus plans offer:

- Affordable rates with multiple discounts available to help reduce your rate even more
  - A 10% discount if you reside with someone who is also enrolled in a MedPlus Medicare Supplement plan
  - An additional $24 annually or $2 off monthly if you choose the annual payment or monthly automated payment option
- See any provider who accepts Medicare without needing a referral¹
- A fitness program through SilverSneakers Fitness² at no additional cost
- A local company with six walk-in regional offices for personal assistance and support

To learn more about CareFirst MedPlus visit carefirst.com/medplusvitality or call 800-275-3802.

MEDICARE MADE SIMPLE
Understanding Medicare can feel overwhelming. Good news—you don’t have to do it alone. CareFirst MedPlus can help simplify things for you. Our free guide, Medicare Made Simple, is designed to assist you with the transition. Learn more today! Call 800-275-3802 or contact your broker to:

- Request a copy of the guide
- Speak with a knowledgeable product consultant
- Learn about the Medicare Supplement (Medigap) options available

The more you know, the more you’ll get out of your Medicare benefits. Follow us for tips to manage your health benefits in retirement, facebook.com/carefirstmedplus.

¹ Standard with all Medicare Supplement plans.

² SilverSneakers is a product owned by Tivity Health, Inc., an independent company that is solely responsible for their products and provides services to CareFirst MedPlus members. Tivity Health does not sell BlueCross or BlueShield products. Tivity Health and SilverSneakers are registered trademarks or trademarks of Tivity Health, Inc. and/or its subsidiaries and/or affiliates in the USA and/or other countries. SilverSneakers is not a benefit guaranteed through your Medigap insurance Policy. It is, however, a health program option made available outside of the Policy to CareFirst MedPlus members.

In some states, Medigap (Medicare Supplement) plans are available for under age 65 disabled individuals that are eligible for Medicare. Neither CareFirst BlueCross BlueShield nor its Medicare supplement insurance policies are connected or endorsed by the U.S. government or the federal Medicare program. This is a solicitation of insurance. In Northern Virginia, Medicare Supplement policies are only available to persons residing east of State Route 123.

The Blue365 wellness discount program offers exclusive health and wellness deals to CareFirst members.

Visit carefirst.com/wellnessdiscounts and take advantage of discounts from top national and local retailers on fitness gear, gym memberships, family activities, healthy eating options and much more.
Understanding Your Medical Benefits

CareFirst has the region’s largest network of doctors, pharmacies, hospitals and other health care providers that accept our health plans. Because networks vary among CareFirst health plans, make sure you’re familiar with your specific plan’s network.

Getting started with your plan
No matter which health plan you have, one of the first things you should do is choose an in-network primary care provider (PCP). By visiting your PCP for routine visits as recommended, they will get to know you, your medical history and your habits. Having a PCP who is familiar with your health can make it easier and faster to get the care you need.

- **In-network** doctors and health care providers participate in your plan’s network. When you choose an in-network provider, you’ll pay the lowest out-of-pocket care costs.

- **Out-of-network** doctors and health care providers have not contracted with CareFirst. If you choose to receive care from an out-of-network provider, you can expect to pay more and, in some cases, may be responsible for the entire amount billed.

To choose an in-network provider, log in to My Account at carefirst.com/myaccount. Select Doctors, then choose Find a Doctor. Your search results will only display doctors who participate in your specific health plan as indicated by this icon.

Understanding your plan’s network

**Health Maintenance Organization (HMO) plans**
CareFirst’s HMO plans use the BlueChoice network of doctors, providers and hospitals. You’ll have access to all the care you need and pay the lowest out-of-pocket costs when you choose providers in this network. If you choose to visit a doctor outside the BlueChoice network, you will be responsible for paying the entire bill. Emergency care received anywhere in the United States is also covered.

**Plus/Point of Service (POS) plans**
CareFirst’s Plus plans (also known as Point of Service or POS plans) offer greater flexibility by providing out-of-network coverage. You’ll have access to all the care you need and have the lowest out-of-pocket costs when you visit doctors in the BlueChoice network. In addition, you have the option to pay more and select any provider within CareFirst’s PPO network.

**Preferred Provider Organization (PPO) plans**
CareFirst’s PPO plans offer the greatest choice of providers. You’ll have access to all the care you need and pay the lowest out-of-pocket costs when you visit in-network providers. For in-network care, choose a provider from the CareFirst PPO network of providers in Maryland, Washington, D.C. and Northern Virginia, or select one from the national BlueCard® PPO network. You also have the flexibility to pay more and go out of network and visit any provider you choose.

Your member ID card will display this suitcase symbol if you’ve chosen a PPO plan.
Understanding Your Plan

Comparing Health Spending Accounts

*Health spending accounts allow you to set money aside to pay for qualified medical expenses.*

Although each allows you to use the funds for expenses like copays and deductibles, there are some important differences among the three types:

- **Health Savings Account (HSA)**
  This tax-advantaged savings account is always combined with a high-deductible health plan. Established by you or your employer, funds can earn interest and rollover year to year. If you buy your own insurance, you are only eligible for an HSA.

- **Health Reimbursement Arrangement (HRA)**
  Allows your employer to set aside a specific amount of money to reimburse your out-of-pocket medical expenses. This money, contributed by your employer, is tax-free to you.

- **Flexible Spending Account (FSA)**
  This account is set up through your employer and allows you to set aside a portion of your income—not subject to payroll taxes—to pay for qualified expenses.

Still not sure how they measure up?
This chart may help.

Understanding Your Plan

How Health Insurance Works

To help you make the most of your health care plan, it’s important to understand how health insurance works, including some key terms.

Plan year begins

Get your preventive care

Here are some key things you get at no charge:

■ Adult physicals
■ Well-child exams and immunizations
■ OB/GYN visits and pap tests
■ Mammograms
■ Prostate and colorectal screenings
■ Routine prenatal maternity services

Need additional care?

Meet your deductible

Your DEDUCTIBLE is the amount of money you must pay each year before CareFirst will start paying for all or part of the services.*

YOU PAY 100% until you meet your deductible.

Important Terms and Definitions

Allowed benefit (allowed charge on your Explanation of Benefits)—is the maximum dollar amount CareFirst determines acceptable to pay for a member’s covered services. Your plan’s group of approved health care providers (in-network providers) accept this allowed amount as payment in full. If a provider is not part of your plan’s network, that provider can charge more than the allowed dollar amount, you may have to pay the difference (balance billing).

Coinsurance—how health care costs are shared between you and your insurance company. Coinsurance is shown as a percentage. If your plan has a 20% coinsurance and the allowed benefit amount is $100, CareFirst pays $80 and you pay $20. Your coinsurance depends on the health plan you choose.

Convenience care centers/retail health clinics—places where you can receive certain health care services, these are usually located inside a pharmacy or retail store and don’t require an appointment. They offer extended weekend hours and can often see you quickly.

Copay—a fixed dollar amount you pay when you visit a doctor or other provider. For example, you might pay $40 each time you visit a specialist or $300 when you visit the emergency room.

Deductible—a set dollar amount that you pay out-of-pocket every plan year before CareFirst begins to pay its portion of your claims. Your deductible depends on the health plan you choose. Premiums do not count toward a deductible. Many CareFirst health plans offer preventive services you can receive before you meet the deductible.

Effective date—the date your coverage begins.

Health Savings Account (HSA)—A tax-free savings account that goes

* Certain charges, such as charges in excess of the allowed benefit, may not be used to satisfy the deductible. Please see your contract for more information.
with a high-deductible health plan (HDHP). An HSA is a cash account which earns interest over time. You own all the funds in your account and the balance rolls over each year. You can contribute to an HSA at any time and can use funds for eligible health care expenses.

Open enrollment—the only time of year when individuals can enroll or switch health plans without qualifying for a special or limited enrollment period.

Out-of-pocket maximum—the most you will have to pay for medical expenses and prescriptions in a calendar year. Once you reach this amount, CareFirst pays 100% of your covered medical expenses for the remainder of the plan year. Your out-of-pocket maximum will start over at the beginning of each new plan year.

Patient-Centered Medical Home (PCMH) program—provides primary care providers (PCPs) with exclusive access to resources like electronic medical records and a large network of specialized nurses to help them better coordinate a patient’s overall health. PCMH PCPs help guide all care including specialists, lab work and prescriptions and focus on preventing problems before they begin. To find a PCMH PCP, go to carefirst.com/doctor and search for a provider with the PCMH logo, or log in to My Account, select Doctors, then choose Select/Change PCP.

Premium—the amount you pay each month (or per paycheck if your health benefits are through an employer) for your health insurance.

Primary care provider (PCP)—a provider you choose who is part of your plan’s network. Your PCP provides routine care like annual checkups and coordinates other specialized care as needed.
Understanding Your Plan

Your Member ID Card

Your member ID card—like the example shown here—identifies you as a CareFirst member and shows important information about you and your covered benefits. Each family member on your plan should have a card with his/her name on it. Make sure to always present your ID card when receiving services. If you don’t have your physical card, you can view it on your smartphone through My Account.

This graphic shows the most requested information when you receive care. In addition, you will find important telephone numbers on the back.

Make sure the information on your card is correct. If there is an error, call Member Services at the number on the back of your member ID card.

Forgot your member ID card?
No problem! Log in to My Account and choose ID Cards.

HOW TO SUBMIT A CLAIM

Mail your claim form
To print and mail your claim form, log in to My Account, select the My Documents tab, choose Forms. Choose the form for your type of claim and fill in the required information. Then, mail the form using the directions included. If you do not have internet access, you can request a paper claim form by calling Member Services at the telephone number on the back of your member ID card.

Submit your claim form online
CareFirst also offers online claims submission for medical, dental and behavioral health claims.* From your computer or mobile device, log in to My Account and select Claims. Choose Submit a Claim Online, then Start New Claim. Enter the requested information, upload the required documents and submit.

*Pharmacy and vision out-of-network claims must be submitted using the paper claim form and by mail as described above.
Understanding Your Plan

Your Explanation of Benefits

After you begin using your plan benefits, CareFirst will provide you with an Explanation of Benefits (EOB). An EOB summarizes the medical care you received and the associated costs. An EOB is not a bill. It details costs you may be responsible for under What You Owe.

<p>| | | | |</p>

1. **Provider charges**—the amount billed by your health care providers for your visit(s).

2. **Allowed benefit (allowed charges on your Explanation of Benefits)**—is the maximum dollar amount CareFirst determines acceptable to pay for a member’s covered services. Your plan’s group of approved health care providers (in-network providers) accept this allowed amount as payment in full. If a provider is not part of your plan’s network, that provider can charge more than the allowed dollar amount, you may have to pay the difference (balance billing).

3. **Copay**—a fixed dollar amount you pay when you visit a doctor or other provider. For example, you might pay $40 each time you visit a specialist or $300 when you visit the emergency room.

4. **Deductible**—a set dollar amount that you pay out-of-pocket every plan year before CareFirst begins to pay its portion of your claims. Your deductible depends on the health plan you choose. Premiums do not count toward a deductible. Many CareFirst health plans offer preventive services you can receive before you meet the deductible.

5. **Coinsurance**—how health care costs are shared between you and your insurance company. Coinsurance is shown as a percentage. If your plan has a 20% coinsurance and the allowed benefit amount is $100, CareFirst pays $80 and you pay $20. Your coinsurance depends on the health plan you choose.

You may lower your costs when you choose:

- Generic drugs
- In-network providers
- Care in a non-hospital setting
- Retail health clinics for after-hours care
- A primary care provider to manage your care
Protect Your Health

There’s no doubt that eating well, exercising regularly and getting a good night’s sleep are key parts of staying healthy—but there’s much more to it than that. Preventive care is essential to staying healthy. This includes regular checkups, screenings and vaccinations. Many preventive care tests and screenings are even covered by your plan and available at no additional cost to you.

Get started with your primary care provider (PCP)
Establishing a relationship with your PCP is important. Depending on your age, gender, lifestyle and family history, your PCP can:

- Recommend important tests and screenings to measure and monitor your overall health
- Help detect and prevent health issues before they become more serious
- Assist you with setting and reaching personal health and wellness goals
- Reinforce and suggest healthy lifestyle choices to keep you on track

Preventive care saves lives
If you had the opportunity to avoid illness and detect problems before they start, would you take it? Screening results can identify both the areas where you’re healthy and the areas you may need to improve. By detecting concerns earlier, you can start treating the issue sooner—and that can mean a longer, healthier life.

Below are four examples where preventive care can play an important role in identifying an issue before it becomes a more serious disease or ongoing medical condition. Prevent disease before it starts. Protect your health!

**High blood pressure**
Nicknamed the “silent killer,” high blood pressure usually shows no symptoms. Because it’s easily overlooked, it contributes to many unexpected deaths every day. Anyone can be at risk for high blood pressure (hypertension). Lifestyle factors like eating habits, alcohol use and a lack of exercise can add up over the years. Have your doctor do regular blood pressure checks to minimize your risk of hardening arteries, heart attack, enlarged heart, kidney damage and stroke. If you already have hypertension, get regular checkups to manage your symptoms.

**Chronic kidney disease**
Chronic kidney disease, like high blood pressure, rarely has symptoms but can have devastating impacts like kidney failure. If you have diabetes, hypertension or a family history of kidney disease, you are at increased risk. However, you can take control of your health by completing two simple screenings: one urine test and one blood test. If detected, your doctor can then work with you on a plan to improve your kidney health.

Diabetes

Millions of Americans have diabetes, and even more are at risk of developing diabetes in their lifetime. Your doctor can identify your risk factors and, if you’re pre-diabetic, help you stop diabetes in its tracks.

Some keys to prevention include:
- Exercising at least five times a week.
- Reducing or eliminating tobacco use. If you smoke, quit!
- Eating healthfully. Cut down on sugar and refined carbohydrates.

Just 30 minutes of aerobic exercise—five times a week—reduces your risk of diabetes. Start with 5-10 minutes a day and gradually work up to 30 minutes.

Colorectal cancer

The risk for colorectal cancer increases as you age. More than 90% of cases occur in people age 50 and older. However, it’s a cancer that is easily diagnosed with preventive screenings. For most adults, screenings typically begin at age 50, but if you are at a higher risk, your doctor may suggest you start earlier. Your doctor will help you determine which test and how often is right for you. Today, as more people are taking advantage of preventive care like colonoscopy and other newer, less invasive tests, colorectal cancer is being discovered and treated earlier. Since 1970, the death rate among adults 50 and older has declined 52% due to screenings and early detection.

Preventive Care for All Ages

**Adults**
Preventive care ranges from general vaccinations to specialized screenings, like prostate exams. Your personal schedule for screenings depends on your gender, age and risk factors for certain illnesses. Some recommendations for adults include:
- Regular physicals
- Annual flu shot
- Blood pressure, glucose and cholesterol checks
- Cancer screenings like colorectal, cervical and breast cancer screenings

**Children**
From the time they’re born, children need regular preventive care including vaccinations and checkups to make sure they’re hitting their milestones and to protect their health as they develop. Their doctor may recommend certain tests, screenings and types of counseling based on their age and personal health needs. Some things your doctor may recommend include:
- Regular well-child visits and dental checkups
- Appropriate vaccinations, including flu and HPV
- Screenings for childhood diseases, high-risk conditions or depression

Partnering with your child’s doctor early on helps keep their health care needs on track.

**Pregnant women**
Routine care during pregnancy supports both a healthy mother and baby. As soon as you suspect a pregnancy, connect with your doctor to make sure everyone is healthy and to coordinate a prenatal and postpartum care plan that’s right for you.

While you’re pregnant, it’s also a good idea to choose a doctor (pediatrician) for your baby. It’s never too early to begin practicing healthy habits. Log in to My Account at carefirst.com/myaccount to find an in-network pediatrician.
Test Your Knowledge

1. **TRUE OR FALSE: I feel fine, so I don’t need to worry about preventive care.**

   False. Scheduling a preventive care visit with your doctor each year can help you stay healthy and identify issues before they become a more serious concern. These visits are a good time to talk to your doctor about your current health, family health history and any potential risk factors you may have for specific conditions. Your doctor may recommend additional preventive vaccines, screenings or tests based on your needs.

2. **TRUE OR FALSE: Preventive care only includes vaccines and some blood tests.**

   False. Preventive care can include a variety of services, including cancer screenings. The type and frequency of services depends on your age, gender, health (including family health history) and your benefit coverage. To confirm what services are covered by your plan, call Member Services at the telephone number on the back of your member ID card.

3. **Which of the following conditions can be improved or avoided with preventive care?**

   A. Diabetes  
   B. High blood pressure  
   C. Chronic kidney disease  
   D. Colorectal cancer  
   E. All of the above

   **Answer:** E. All of the above

4. **TRUE OR FALSE: If I’m only using preventive care services, having a primary care provider (PCP) does not benefit me.**

   False. When you work with your PCP over time, they’ll develop an understanding of your family’s health history and your personal health history. They can create a preventive care timeline specific to your needs.

---

For a complete list of preventive care options available to you, visit carefirst.com/prevention. Be sure to verify your preventive care benefits by logging in to My Account at carefirst.com/myaccount.

---

**CREATE YOUR PREVENTIVE CARE CHECKLIST**

Get started today! Create your own preventive care checklist at carefirst.com/prevention. Just select Create Preventive Checklist from the Staying Healthy menu. Then, answer a few short questions and you’ll get a printable checklist to share and discuss with your doctor.
Getting Support for Mental Health or Substance Use Disorders

Many people face mental health challenges during their lifetime, whether caused by family history, trauma, abuse, genetics, physical illness or a combination of these factors. If you are living with depression, anxiety, substance use disorder or another condition, CareFirst offers access to providers and resources that can help. Participation is voluntary and confidential.

Our team of service representatives, registered nurses and licensed behavioral health clinicians can help find the best provider for you and quickly schedule an appointment. For additional assistance, you may be referred to one of our licensed behavioral health care coordinators, who can:

- Schedule weekly check-in calls
- Provide support and guidance
- Coordinate care with your doctors
- Connect you with support groups
- Provide resources to help you understand and manage your prescription medications

To find help or to make an appointment, call 800-245-7013 or visit carefirst.com/mentalhealth. If you are in crisis, help is available 24/7.

Substance Use Recovery Program

If you’re struggling with drug or alcohol addiction, treatment is available. Our team can connect you with providers and recovery centers who can:

- Provide personalized treatment to fit your schedule
- Connect you with counselors who can help you overcome daily temptations and triggers
- Educate you and your doctors on addiction causes, symptoms and treatment options

Costs for eligible services may be waived depending on your benefits. For more information, visit carefirst.com/addiction.
Understanding Your Prescription Drug Benefits

Our formulary structure
The prescription drugs covered on the CareFirst formulary (drug list) are reviewed and approved by the Pharmacy and Therapeutics (P&T) Committee, an independent national committee comprised of physicians, pharmacists and other health care professionals. This committee reviews the drugs on the formulary to ensure they are safe and clinically effective. Drugs may be added to the formulary on a monthly basis and drug exclusions and tier changes may occur on a quarterly basis. If there is a change to the formulary, impacted members are notified via letter. The drugs are categorized into tiers (see chart to right) and your cost-share is determined by that tier. Each plan has different tiers so check your benefit guide to see what tiers your plan includes.

Prescription guidelines
To ensure you are receiving the most appropriate medication for your condition(s), certain medications have prescription guidelines. These may include:

- **Prior authorization** is required before you fill prescriptions for certain drugs. Your doctor may need to provide your medical history or laboratory tests before they can be filled. Without prior authorization approval, your drugs may not be covered.

- **Quantity limits** are placed on selected drugs due to safety or quality concerns, or to discourage unnecessary overutilization. Limits may be placed on the amount of the drug covered per prescription or for a defined period of time. If your doctor decides that a different quantity of medication is right for you, your doctor can request prior authorization for coverage.

- **Step therapy** ensures you receive a cost-effective drug option as the first step in treating certain health conditions. When similar drugs are available, step therapy guides your doctor to prescribe the most cost-effective option first. Higher step drugs may require prior authorization by your doctor before they can be covered.

- **Exception requests**
Some drugs may not be covered on your formulary. An excluded drug always has an alternative drug option in the same drug class on the formulary. There is an exception process if you need an excluded drug to be covered for medical necessity reasons. Your doctor may submit an exception request by fax or electronically.

If an exception request is approved, your drug will be covered, and a notice is sent to you and your doctor.

If an exception request is denied, a notice is sent to you and your doctor explaining the reason why the request was denied and information on how to submit an appeal.

**Generic dispensing**
Generic drugs meet the same U.S. Food and Drug Administration standards as brand-name drugs; both are safe and effective, but generics typically cost significantly less. Brand-name drugs may be substituted with a generic drug equivalent, when available. The brand-name drug can be requested; however, your cost share may increase depending on the generic dispensing option (voluntary, restrictive, or mandatory) that is part of your prescription benefit plan. Refer to your benefit summary or enrollment materials for more information.

<table>
<thead>
<tr>
<th>Drug Tier (cost-share)</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tier 1 Generic $</td>
<td>Generic drugs are equally safe and effective as brand-name drugs, but typically cost significantly less.</td>
</tr>
<tr>
<td>Tier 2 Preferred Brand $</td>
<td>Preferred brand drugs are drugs that are not yet available in generic form but are chosen for their cost effectiveness compared to alternatives. Your cost-share will be more than generics but less than non-preferred brand drugs. If a generic drug becomes available, the preferred brand drug may be moved to the non-preferred brand tier.</td>
</tr>
<tr>
<td>Tier 3 Non-Preferred Brand $$$</td>
<td>Non-preferred brand drugs often have a generic or preferred brand drug option available with a lower cost-share.</td>
</tr>
<tr>
<td>Tier 4 Preferred Specialty $$$$$</td>
<td>Preferred specialty drugs are used to treat chronic, complex and/or rare health conditions. Preferred specialty drugs may have a lower cost-share than non-preferred specialty drugs.</td>
</tr>
<tr>
<td>Tier 5 Non-Preferred Specialty $$$$$</td>
<td>Non-preferred specialty drugs often have a preferred specialty drug option that has a lower cost-share.</td>
</tr>

</table>
Resources

To view your prescription drug benefit information and resources, log in to My Account at carefirst.com/myaccount, then select Drug and Pharmacy Resources.

- **Find a Pharmacy**—use this tool to search our network of 69,000 pharmacies across the country. If you use an out-of-network pharmacy, you will need to pay the full cost of the prescription and submit a paper claim to CVS Caremark* for reimbursement.

- **Drug Pricing Tool**—find cost-share information for covered drugs, lower cost alternatives and whether a prescription requires prior authorization, quantity limits or step therapy.

- **Mail Order**—a convenient option to request or refill your prescriptions through home delivery.

- **Drug Claims**—view and print your prescription history.

- **Plan Summary**—view your plan and benefits, including savings opportunities.

- **Drug Forms**—find forms for prescription claims, exception requests, and mail order.

Ways to save

- **Generic drugs**—made with the same active ingredients as their brand-name counterparts, generic drugs can cost up to 85% less than their brand-name counterparts. Talk to your doctor or pharmacist about switching to a generic drug.

- **Maintenance medications**—these medications are used to treat chronic, long-term conditions such as high blood pressure or diabetes, and are taken on a regular, recurring basis. With most plans, you can get up to a three-month supply of your maintenance medications for the cost of two copays at any pharmacy in the network, including through mail order.

- **Mail order**—get prescriptions delivered right to your home. Plus, if you pay a coinsurance for your maintenance drugs, the overall cost of the drug may be less expensive through mail order, reducing your out-of-pocket costs. Sign up by calling CareFirst Pharmacy Services at 800-241-3371 or through My Account.

- **Drug Pricing Tool**—compare the cost of a drug purchased at a pharmacy versus purchasing the same drug through mail order and view generic drugs available at a lower cost.

---

*CVS Caremark is an independent company that provides pharmacy benefit management services to CareFirst members.*
Do I Need a Referral or Prior Authorization?

Wonder if you need a referral, or approval, before seeing a specialist or receiving services? While many plans offered by CareFirst do not require referrals, some plans do.

The Maryland Point of Service (MPOS) plan and some HMO and BlueChoice plans require referrals.

- MPOS—All MPOS members must first choose a primary care provider (PCP). Then you must obtain a referral from your PCP prior to your specialist visit to receive in-network benefits. MPOS members can see a specialist without a referral but may pay more out of pocket.

- HMO and BlueChoice—Most BlueChoice plans do not require a referral to see a specialist. However, if your plan does require a referral, your PCP must provide you with the referral prior to your visit with a specialist.

Referrals may be for a single visit or multiple visits, also referred to as a standing referral. Standing referrals may be issued if the patient has a specific condition such as:

- A cancer diagnosis, in order to see a board-certified pain management physician
- A pregnancy, for maternal care and delivery

Or, for a condition that

- Is life threatening, degenerative, chronic, or a disability
- Requires specialized medical care

For members in all plans, your doctor must request authorization prior to services such as non-emergency hospitalizations, outpatient hospital services and home health care.

To determine if your plan requires referrals or authorizations, or for questions about how your benefit plan works, you can:

- Log in to My Account and check your benefit details,
- Refer to the benefit guide you received when you enrolled, or
- Call Member Services at the telephone number on the back of your member ID card

Referrals for Members in HMO Plans
Access to Non-network Providers
Many of CareFirst’s plans offer out-of-network coverage, typically costing the member more. However, there are some situations where a member may not have access to a network provider and may be able to access a non-network provider at a network cost-share for deductible, copayment and coinsurance.

When access to non-network providers is authorized for the situations described herein, the service is treated as if it was provided by a network provider for purposes of calculating the member’s deductible, copayment and coinsurance.

If you are unable to find a network provider with the expertise or without unreasonable delay or travel, contact Member Services at the telephone number on the back of your member ID card to initiate your request.

Initial determinations for non-emergency authorizations are made within two working days of receipt of the information necessary to make a decision. Urgent authorization decisions are made within 24 hours of receipt of request.

Grievance and Appeal Process
If you have a concern regarding the denial of an authorization, you may call the Member Services telephone number on the back of your member ID card. A representative can help you initiate the appeal process.

If you would like to review the procedure for filing an appeal, visit carefirst.com/appeals. For a printed copy, call Member Services at the telephone number on the back of your card.
Using Your Plan

Complex Care Management Helps Members in Need

When facing a serious illness, you and your family may have many questions, choices and difficult decisions to make.

CareFirst’s complex care management services can enhance your overall care by providing an organized, comprehensive and holistic approach to your health care needs. This will reduce the frustration of fragmented care that those with complex care requirements often face. Your care manager can coordinate your medical care services and help you better understand your condition. Your care manager can also share resources to assist you in making informed decisions about your health care.

Complex care management services can help:

- Enhance the quality of life for you and your family
- Contribute to your sense of well-being and dignity
- Positively influence the quality of your health care
- Empower you and your family members through education

When you enroll in the program, a care manager will:

- Call you for an initial review of your medical history to identify the factors that may affect your health
- Review your progress and answer any of your questions
- Provide support during your time of need
- Provide you with information and self-care tips related to your condition
- Assist with identifying community resources and support groups available to you
- Work closely with your doctor to coordinate necessary services

To enroll in complex care management, talk with your primary care provider (PCP) today. You may also call CareFirst’s team at 800-245-7013 and select the appropriate option.
Using Your Plan

Explore Your Options for Out-of-Area Care

For members with BlueChoice plans and HealthyBlue HMO, 2.0, Plus, and Advantage plans
When you are outside the CareFirst service area of Maryland, Washington, D.C. and Northern Virginia, benefits are available for emergency or urgent services. In addition, some plans provide out-of-network coverage for other covered services as well. Refer to your benefit guide for more information. BlueChoice Advantage and HealthyBlue Advantage plans provide in-network coverage for other covered services when a member uses the BlueCard PPO network; out-of-network coverage would apply when those covered services are performed by non-BlueCard providers.

When you see an out-of-area participating BlueCross BlueShield doctor or hospital for emergency or urgent care, you only pay out-of-pocket expenses, like a copayment. Your provider files the claim, which is paid at the in-network level. If your plan provides out-of-network benefits, those covered services are paid at the out-of-network benefit level.

Members who will be out of town for 90 days or more are eligible for the Away From Home Care program. This program is ideal for travelers, students who live at school or families who live apart. Program members enjoy a full range of benefits, including routine and preventive care. Your copayment and benefits will be the same as those of the affiliated HMO in the area you are visiting. You will be treated as though you are a member of the affiliated plan.

For more information, or to enroll in the Away From Home Care program, call Member Services at the telephone number on the back of your member ID card and ask for the Away From Home Care coordinator.

For members with PPO, PPN, and MPOS plans
When you are outside the CareFirst service area of Maryland, Washington, D.C. and Northern Virginia, benefits are still available for health care services. If you have a Preferred Provider Organization (PPO) or Preferred Provider Network (PPN) plan, in-network benefits are available for covered services rendered by providers who participate in the PPN plan of another BlueCross and BlueShield (BCBS) plan. Non-emergency and urgent treatment care by providers who are not in a BCBS PPN plan are eligible for out-of-network benefits.

When you arrive at the doctor’s office or hospital, present your current CareFirst member ID card with the suitcase logo. After you receive medical attention, your provider will file the claim.

CareFirst pays all participating and preferred doctors and hospitals directly. You are only responsible for any out-of-pocket expenses (non-covered services, deductibles, copayments or coinsurance).

If the provider does not participate with a BCBS plan, and you must pay at the time of service, contact Member Services or visit the Using Your Plan section of carefirst.com to get a claim form for reimbursement of the charges.

NOTE: You are responsible for obtaining all necessary prior authorization for out-of-area services. Check your Evidence of Coverage for requirements specific to your health plan.
Benefit Information About Your Health Plan Coverage

When you joined your health plan, you received enrollment materials, including a benefit guide and a primary care provider (PCP) selection form, if applicable. These documents include information about how and where to get primary, specialty and emergency health care, pharmacy and related services. They also include information on premium changes, policy renewability and employers’ responsibilities for dependent coverage.

Sometimes, changes to your health plan may result in new information that may not be reflected in your enrollment materials. For the most current information, you should log in to My Account at carefirst.com/myaccount.

When you have questions about your benefits, including what’s covered, what’s not covered, benefit restrictions and more, there are several ways to find the information:

■ Log in to My Account at carefirst.com/myaccount from your computer or mobile device.
■ Refer to your Evidence of Coverage or the benefit guide you received when you enrolled.
■ If you have coverage through your employer, ask your benefits office.
■ If you do not have internet access, call Member Services at the telephone number on the back of your member ID card. To help you remember the conversation and avoid having to call Member Services again, write down:
  □ The date and time you called,
  □ The name of the Member Services representative,
  □ What course of action the Member Services representative will take, and
  □ When you can expect resolution, if applicable
■ Stop by any of the CareFirst offices (listed on the back cover) weekdays between 8:30 a.m. and 4:30 p.m. to get your questions answered by our fully licensed staff.

Continuation of coverage
As a CareFirst member, you may have options for continuing your health care coverage if your employment status changes. Your options may include the following:

■ Consolidated Omnibus Budget Reconciliation Act (COBRA): For information, contact your company’s health benefits administrator.
■ State continuation plan: For information, contact your company’s health benefits administrator.
■ Individual plan: Call 800-544-8703 for details, including benefits options.
Notice of Privacy Practices

CareFirst BlueCross BlueShield and CareFirst BlueChoice, Inc. (CareFirst) are committed to keeping the financial and protected health information of members private. Under the Gramm Leach Bliley Act (GLBA) and the Health Insurance Portability and Accountability Act of 1996 (HIPAA), we are required to have policies and procedures in place to protect your financial and protected health information, whether oral, written or electronic. Additionally, we are required to send our Notice of Privacy Practices to members of fully insured groups only. The notice outlines the uses and disclosures of your financial and protected health information, the individual's rights and our responsibility for ensuring the privacy of your information.

To obtain a copy of our Notice of Privacy Practices, please visit our website at carefirst.com or call the Member Services telephone number on your member ID card. Members of self-insured groups should contact their Human Resources department for a copy of the company’s Notice of Privacy Practices. If you don’t know whether your employer is self-insured, please contact your Human Resources department. CareFirst sends the Notice of Privacy to all policyholders upon enrollment.

Below is a brief summary of our Notice of Privacy Practices.

Our responsibilities

We are required by law to maintain the privacy of your financial and protected health information and to have appropriate procedures in place to do so. We are also required to notify you following a breach of your unsecured protected health information. In accordance with the federal and state privacy laws, we have the right to collect, use and disclose your financial and protected health information for payment activities and health care operations. In addition, we may use or disclose your information for health benefits administration purposes (such as claims and enrollment processing, care management and wellness offerings, claims payment, and fraud detection and prevention efforts), and our business operations (including for quality measurement and enhancement and benefit improvement and development) as explained in the Notice of Privacy Practices.

Personal contact information and telephone number including mobile number, may be used and shared with other businesses that work with CareFirst to administer and/or provide benefits under this plan and to notify members about treatment options, health related services and/or coverage options.

Where permitted by law, we may disclose your financial and protected health information to the plan sponsor/employer to perform plan administration functions. We also may disclose protected health information for national priority purposes.

For most purposes other than those described in this summary, a valid authorization from you is required before we may use or disclose your financial and protected health information.

Your rights regarding protected health information

You may request in writing the following rights:

- Request a copy of your protected health information that is contained in a designated record set pertaining to your medical record.
- Request that we restrict the protected health information we use or disclose about you for payment or health care operations.
- Request that we communicate with you regarding your information in an alternative manner or at an alternative location if you believe that a disclosure of all or part of your protected health information may endanger you.
- Request that we amend your information if you believe that your protected health information is incorrect or incomplete.
- Request an accounting of disclosures of your protected health information that are for reasons other than payment or health care operations.

Inquiries and complaints

A member may complain to CareFirst if the member believes that CareFirst has violated their privacy rights. A member also may file a complaint with the Secretary of Health and Human Services. If you have a privacy-related question, please call the CareFirst Privacy Office at 800-853-9236.

MEMBERS’ RIGHTS AND RESPONSIBILITIES

CareFirst is committed to maintaining a mutually respectful relationship with you. Our Rights and Responsibilities policy acknowledges our responsibilities to you and outlines your obligations as a member. Understanding your rights and responsibilities will help you make the most of your membership and relationship with CareFirst.

To find the full list of your rights and responsibilities, visit carefirst.com/myrights. For a printed copy, call Member Services at the telephone number on the back of your member ID card.
Notice of Information Sharing to Enhance or Coordinate Your Care

This notice describes how medical information and data about you may be shared between CareFirst and your treating providers to enhance or coordinate your care. Please read it carefully.

Note: References to CareFirst include CareFirst of Maryland, Inc., Group Hospitalization and Medical Services, Inc., CareFirst BlueChoice, Inc., and all of their corporate affiliates (collectively, “CareFirst”).

Why we may share information
The more complete information your health care providers have, the better they can meet your health care needs. Sharing information and data with your treating providers can lead to better coordinated care, help you get timely care, limit duplicative services and help them better identify patients who would benefit most from care management and other care coordination programs.

How we use medical information to enhance or coordinate your care
To administer your health benefits, CareFirst receives claims data and other information from your various providers of care regarding diagnoses, treatments, programs and services provided under your health plan. Individual treating providers, however, may not have access to information from your other providers. When CareFirst has such information, it may share it with your treating providers through secure, electronic means solely for purposes of enhancing or coordinating your care and to assist in clinical decision making.

This information may include health care claims information or medical data resulting from medical encounters, treatments, diagnostic tests, screenings, prescriptions or Patient-Centered Medical Home and other complex care management programs and activities. It may also include the results of your Health Risk Assessment and/or Wellness Screening provided through a contracted CareFirst health care partner.

Information received by CareFirst from your providers for the sole purpose of enhancing or coordinating your care cannot be used for purposes of underwriting, utilization review or setting rates on your health insurance. You cannot be denied insurance or lose your coverage based on the information shared by your treating providers with CareFirst for care coordination purposes.

The sharing of this information is also subject to the privacy rules of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and other applicable federal and state privacy laws. You have separately been provided notice of your privacy rights under HIPAA as part of CareFirst’s Notice of Privacy Practices. The restrictions on sharing of medical information that are discussed in your HIPAA notice and your rights under HIPAA continue to apply.

You may opt out of information sharing by CareFirst for these care coordination purposes
You have the right to opt out of the sharing of this information by CareFirst with your treating provider for care coordination purposes at any time. To opt out, complete, sign and return the Opt Out of Information Sharing form. You can find the form at carefirst.com/informationsharing.

When you submit this form, you also end participation in any of the programs listed in this notice that require the sharing of information to enhance or coordinate care. If you opt out, your treating providers will not have access to the data or information CareFirst has available to help enhance or coordinate your care.

This Notice of Information Sharing is in accordance with the CareFirst’s Privacy Practices. For a copy of CareFirst’s Notice of Privacy Practices, see page 30 of this magazine. For questions, or for a copy of this notice, the Opt Out form or CareFirst’s Notice of Privacy Practices in writing, contact:

CareFirst BlueCross BlueShield

What You Should Know About Advance Directives

Everyone has the right to make personal decisions about health care.

Provided by Maryland Department of Health and Mental Hygiene (DHMH).
CareFirst is required to publish this information for members in Maryland, but it may be helpful to all members.

Doctors ask whether you will accept a treatment by discussing the risks and benefits and working with you to decide. But what if you can no longer make your own decisions? Anyone can wind up hurt or sick and unable to make decisions about medical treatments. An advance directive speaks for you if you are unable to and it helps make sure your religious and personal beliefs will be respected. It is a useful legal document for adults of any age to plan for future health care needs.

While no one is required to have an advance directive, it is smart to think ahead and plan now. If you don’t have an advance directive and later you can’t speak for yourself, then usually your next of kin will make health care decisions for you. But even if you want your next of kin to make decisions for you, an advance directive can make things easier for your loved ones by helping to prevent misunderstandings or arguments about your care.

What can you do in an advance directive?
An advance directive allows you to decide who you want to make health care decisions for you if you are unable to do so yourself. You can also use it to say what kinds of treatments you do or
do not want, especially the treatments often used in a medical emergency or near the end of a person’s life.

1. **Health care agent.** The person you name to make decisions about your health care is called a “health care agent” (sometimes also called a “durable power of attorney for health care,” but, unlike other powers of attorney, this is not about money). You can name a family member or someone else. This person has the authority to see that doctors and other health care providers give you the type of care you want, and they do not give you treatment against your wishes. Pick someone you trust to make these kinds of serious decisions and talk with this person to make sure they understand and are willing to accept this responsibility.

2. **Health care instructions.** You can let providers know what treatments you want to have or not have. (Sometimes this is called a “living will,” but it has nothing to do with an ordinary will about property.)

Examples of the types of treatment you might decide about include:

- Life support, such as breathing with a ventilator
- Efforts to revive a stopped heart or breathing (CPR)
- Feeding through tubes inserted into the body
- Medicine for pain relief

Ask your doctor for more information about these treatments. Think about how, if you become badly injured or seriously ill, treatments like these fit in with your goals, beliefs and values.

**How do you prepare an advance directive?**

Begin by talking things over, if you want, with family members, close friends, your doctor or a religious advisor. Many people go to a lawyer to have an advance directive prepared. You can also get sample forms yourself from many places, including the organizations given as examples listed at right. There is not one form that must be used. You can even make up your own advance directive document.

To make your advance directive valid, it must be signed by you in the presence of two witnesses, who will also sign the document. If you name a health care agent, make sure that person is not a witness. Maryland law does not require that the document be notarized. You should give a copy of your advance directive to your doctor, who will keep it in your medical file, and to others you trust to have it available when needed. Copies are just as valid as the originals.

You can also make a valid advance directive by talking with your doctor in front of a witness.

**When would your advance directive take effect?**

Usually, your advance directive would take effect when your doctor certifies in writing that you are not capable of making a decision about your care. If your advance directive contains health care instructions, they will take effect depending on your medical condition at the time. If you name a health care agent, you should make clear in the advance directive when you want the agent to be able to make decisions for you.

**Can you change your advance directive?**

Yes, you can change or take back your advance directive at any time. The most recent one will count.
Notice: Member Coverage and Rate Information

Every year, CareFirst is required to publish this notice informing you of your benefits for the following services, along with proposed rate increase information.

Hablitative services
CareFirst provides coverage for habilitative services.

In Maryland, habilitative services consist of services and devices, including occupational therapy, physical therapy and speech therapy, which help a child keep, learn or improve skills and functioning for daily living.

In Washington, D.C., habilitative services apply to occupational therapy, physical therapy and speech therapy for the treatment of a child with a congenital or genetic birth defect to enhance the child’s ability to function.

Please note that the benefits provided by habilitative coverage in both jurisdictions do not include services to a child provided under an individualized education program (IEP) or any obligation imposed on a public school by the Individuals with Disabilities Education Act, 20 U.S.C. 1400 et seq., as amended periodically.

Before obtaining treatment, check your Evidence of Coverage to determine if you or your dependents are eligible to receive these benefits since age restrictions may apply.

CareFirst must pre-approve all habilitative services. Any deductibles, copayments and coinsurance required under your benefit guide apply. Policy maximums and benefit limits may apply. Habilitative services are not counted toward any visit maximum for therapy services.

If you have questions regarding any of these services, call Member Services at the telephone number listed on the back of your member ID card.

Care for mothers, newborns
Under the Newborns’ and Mothers’ Health Protection Act, CareFirst offers coverage for inpatient hospitalization services for a mother and newborn child for a minimum of:

- 48 hours of inpatient hospitalization care after an uncomplicated vaginal delivery
- 96 hours of inpatient hospitalization care after an uncomplicated cesarean section

If the mother and newborn remain in the hospital for at least the length of time provided, coverage includes a home visit if prescribed by the attending physician. The mother may request a shorter length of stay if, after talking with her physician, she decides that less time is needed for her recovery.

If the mother and newborn have a shorter hospital stay than listed above, coverage includes one home visit scheduled to occur within 24 hours after hospital discharge and an additional home visit if prescribed by the attending physician.

Mastectomy
CareFirst provides coverage for a minimum 48-hour inpatient hospital stay following a mastectomy.

If the member remains in the hospital for at least the time provided, coverage includes a home visit if prescribed by the attending physician. The member may request a shorter length of stay if, after talking with her physician, she decides that less time is needed for her recovery.

If the member has a shorter hospital stay than listed previously, coverage
Rights and Responsibilities

includes one home visit scheduled to occur within 24 hours after discharge plus an additional home visit if prescribed by the attending physician.

This coverage notice applies only to policies sold to businesses and individuals in Maryland. Please check your Evidence of Coverage to determine whether you are eligible for these surgical procedure benefits.

Mastectomy-related services
CareFirst offers benefits for mastectomy-related services under the Women’s Health and Cancer Rights Act of 1998, including:

- All stages of reconstruction of the breast that underwent the mastectomy
- Surgery and reconstruction of the other breast to produce a symmetrical appearance
- Prosthesis (artificial breast) and treatment of the physical complications that occur at all stages of the mastectomy, including lymphedema (swelling)

You and your physician will determine the appropriate plan to treat your condition. These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits covered under your health plan. Please refer to your benefit guide or Evidence of Coverage for more details or call Member Services at the telephone number on the back of your member ID card.

Mental health and substance abuse services notice
Maryland law requires health insurance carriers to provide specific information about mental health and substance abuse benefits to their members enrolled in Maryland individual plans or Maryland fully insured groups; however, this information should be helpful to all members.

Members can view their mental health and substance abuse benefits online. To do so, log in to My Account at carefirst.com/myaccount. If you have not registered, please follow the steps indicated online. Once you have logged in, visit the Coverage tab at the top of the page and then select Benefits Details. The benefits shown only reflect current benefits.

Mental health and substance abuse benefits are compliant with Maryland law and/or federal law and vary whether you purchase your own plan or have a plan through your employer.

If you require additional information about mental health and substance abuse benefits as required by Maryland law, please contact the Maryland Insurance Administration online at www.mdinsurance.state.md.us or call 410-468-2000. If you wish to write the MIA, the address is 200 St. Paul Place, Suite 2700, Baltimore, MD 21202.

NOTE: You may authorize CareFirst in writing to share your mental health information with a third party, such as a family member, employer, lawyer, broker or unrelated party by completing and submitting an authorization form. Call Member Services at the telephone number on the back of your member ID card to request the Authorization Form for Information Release. You will receive the form by standard mail within 10 business days after CareFirst receives the request.

Home visits
CareFirst provides coverage for home visits to members who undergo the surgical removal of a testicle. Coverage includes one home visit that occurs within 24 hours after discharge from the hospital or outpatient facility and an additional home visit if prescribed by the member’s doctor.

To be eligible, the member must be in the hospital less than 48 hours or have the procedure performed on an outpatient basis. This coverage notice applies only to policies sold to businesses and individuals in Maryland. Please check your Evidence of Coverage to determine whether you are eligible for these surgical procedure benefits.

PROPOSED RATE INCREASE NOTICE
Maryland law requires health insurance companies, health maintenance organizations (HMOs) and nonprofit health service plans to file rates and have them approved by the Maryland Insurance Administration (MIA) before the rates go into effect.

The proposed rates are posted on the MIA’s website at www.mdinsurance.state.md.us.

Once the proposed rate increases are posted, Maryland consumers have a 30-day public review period to submit comments on the MIA’s website. Once the MIA completes its review process and makes a final decision on any rate filings, a summary of the results is posted on its website.
How to Submit an Appeal, Grievance or Complaint

Appeals or grievances
If you have concerns regarding a decision that adversely affects coverage, such as a denial, a reduction of benefits, or a denial of authorization for services, you may call the Member Services telephone number on the back of your member ID card. A representative can assist you with resolving the issue or initiating the appeal process. If needed, language interpretation is available.

If you would like to review the procedure for filing an appeal, visit carefirst.com/appeals. For a printed copy, call Member Services at the telephone number on the back of your member ID card. In addition, many members have a right to an independent external review of any final appeal or grievance decision. Refer to your Evidence of Coverage for more specific information regarding initiating an external review, a final appeal determination or a complaint.

Quality of care complaints
We care about the quality of care and services you receive from your doctor or health care provider and want to hear your concerns and complaints so that we can resolve them. We investigate each complaint and take action, when appropriate, to correct the problem. We track information from complaints to identify and address opportunities for improvement within your health plan and our provider networks. Members cannot be disenrolled or otherwise penalized for filing a complaint or an appeal of a complaint decision.

Please contact us if you have a quality of care or service complaint involving medical issues or services received from a doctor or provider in our network—this includes the nurse advice line, disease management or wellness staff, mental health specialists and vision or pharmacy providers.

You may submit a complaint using any of these methods:

- Call Member Services at the telephone number on the back of your member ID card. If you have trouble understanding English, please tell the representative and we will have an interpreter who speaks your preferred language join the call.
- Send an email to quality.care.complaints@carefirst.com
- Fax a written complaint to 301-470-5866.
- Mail a written complaint to: CareFirst BlueCross BlueShield Quality of Care Department Clinical Appeals Unit P.O. Box 17636 Baltimore, MD 21298-9375

Please include your name, address, member ID number, telephone number and as much detail as possible about the event or incident, including date(s) of service. We respond to all complaints or letters of concern within 60 days (or sooner), depending on the urgency of the situation.

DECISIONS ABOUT MEDICAL, PHARMACY AND MENTAL HEALTH CARE
CareFirst wants to ensure that its members receive appropriate medical, mental health care, and pharmacy services. Our professional staff including doctors and nurses, makes coverage decisions based on medical information. It is important for you to know that:

- The utilization management staff makes decisions based only on the existence of coverage and the appropriateness of the care and service you or your family members receive.
- Neither CareFirst nor our partners reward doctors, nurses, or other individuals for issuing denials of coverage or service.
- Neither CareFirst nor our partners receive financial incentives that encourage decisions leading to under use of services.
- CareFirst and our partners monitor service patterns for possible under use of services throughout the year.

HOW TO GET LANGUAGE AND COMMUNICATION ASSISTANCE
If you have trouble understanding English, please tell the representative when you call Member Services and we will have a translator who speaks your preferred language join the call. We can provide you with information about your benefits, how to access medical services and help answer any other questions you have.

If you have a hearing or speech impairment, please dial 711 to place a call to Member Services.
Get *Vitality* and Other CareFirst Communications Online

Did you know you can access *Vitality* and other CareFirst communications online? When your Explanation of Benefits (EOBs), drug reminders, *Vitality* and more are available, you can be notified by email, text or push notification.*

Signing up is easy:

2. Open your profile information by clicking the drop-down menu next to your name.
3. Click *Communication Preferences* to access the settings for each type of communications, such as:
   - Electronic EOBs
   - Newsletters and announcements
   - Wellness communications
   - Plan and product services
   - Drug reminders
4. For each communication, click your preference—email, text or push notification.

Save time and paper by making the switch to electronic communications today. View, print or download important documents anytime, anywhere.

*To receive push notifications from CareFirst, the app is required. Visit your favorite app store and search for CareFirst to download the app. Push notifications are only available for EOBs at this time.*
